

# STEM HBCU INDUSTRY NETWORKING/ MENTORING EXCHANGE (SHINE) PROGRAM

The Pharma/Biotech Mentoring Program (SHINE) aims to diversify, build, and prepare future scientists and drug discovery experts. An instrumental part of this process is having a mentor for scientific and professional guidance. The SHINE Program pairs you with a Pharma/Biotech mentor to achieve this goal. Our mentors come from a diverse range of careers at numerous companies in the pharmaceutical and biotech space and are passionate about training future scientists.

## THE PROGRAM WILL BEGIN:

FEBRUARY/MARCH 2021

## ELIGIBILITY:

HBCU STEM :

- Junior/Senior Undergraduates
- Graduate Students
- Recently graduated

**READY TO MATCH? Click the link or scan the QR code below.**

## MENTORING OBJECTIVES:

Students are paired with a mentor to engage in a series of interactions over a semester to:

- Provide insight into the career possibilities with a STEM degree
- Expand network within the Pharma/Biotech community
- Create mentoring relationships that enable students to overcome barriers into drug discovery
