

What's Happening @ BSCP April 2021 Edition

April Events Recap

BIOMEDICAL SCIENCE CAREERS STUDENT CONFERENCE

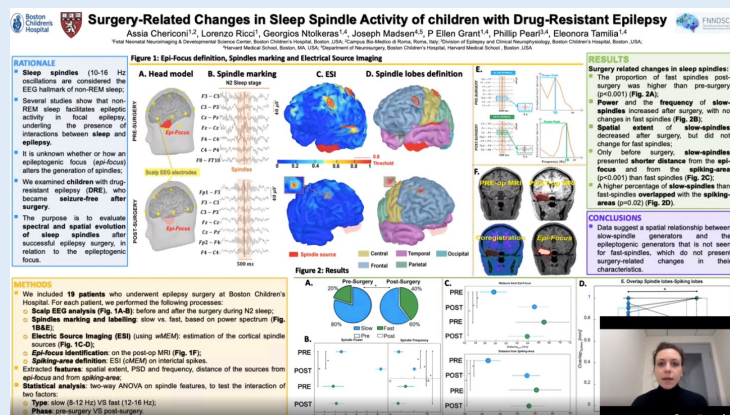

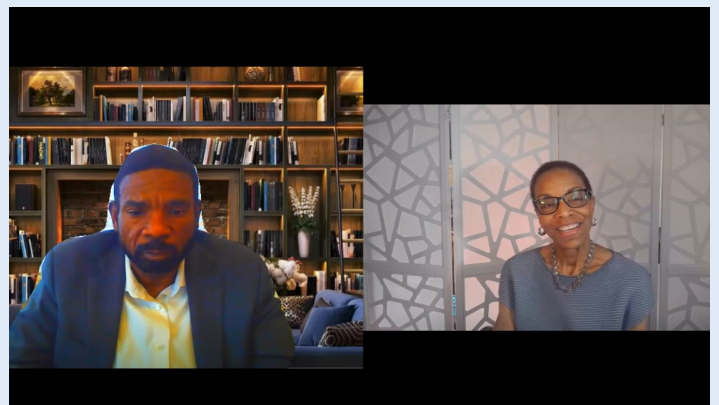

Over 1,000 students/fellows and 200 advisors joined us virtually for the April 9th and 10th Biomedical Science Careers Student Conference! Attendees heard the inspiring stories of our three distinguished keynote speakers and learned practical and insightful advice from individuals serving on 20 panels. We also had the pleasure of hosting 46 exhibitors in our Resource Room! All keynote addresses and many of the panels were recorded and can be accessed on the [event site](#) until May 9th.

Thank you to those who joined us and a special thank you to our major conference sponsor, Vertex, as well as all of BSCP's corporate and foundation sponsors for your strong support.

NEW ENGLAND SCIENCE SYMPOSIUM

12 oral presenters and 235 poster presenters shared their research virtually at the 20th annual New England Science Symposium on April 23rd and 24th. The event kicked off with an amazing keynote address followed by oral presentations covering various subjects. The students interacted with judges during facilitated research discussions and connected with over 40 organizations in the career fair. The event was cosponsored by BSCP and the HMS Office for Diversity Inclusion and Community Partnership. Thank you to Vertex for supporting this event.

Congratulations to all presenters! Award winners will be announced next week.

A banner for the "2021 VIRTUAL BSCP STUDENT CONFERENCE". The banner features the BSCP logo and the following text:
