

What's Happening @ BSCP

December 2022 Edition

In Case You Missed It

Resources

- **MBI Inclusive, Diverse and Equitable Communities Success (INDECS) Scholarship** advances the DBMI Diversity Mission to help build and support a diverse, inclusive, and equitable Biomedical Informatics field. The scholarship covers tuition and mandatory fees for the typical duration of the program (three semesters) while the student is making satisfactory academic progress. Click [here](#) for more information for questions please reach out to lilen@hms.harvard.edu or to INDECS@hms.harvard.edu
- **Summer Health Professions Education Program (SHPEP)** is a free summer program for students to explore their interests in medicine, dentistry, nursing, optometry, pharmacy, physical therapy, public health, and more. The program takes place at our 12 partner institutions and offers students a chance to develop healthcare skills and get clinical exposure. The application deadline is February 5th. Click [here](#) for more information.
- **Massachusetts General Hospital (MGH)** is seeking a Clinical Research Coordinator in the Healthcare Transformation Lab to assist with the deployment of a feasibility study of a real-time language translation technology. This technology will be piloted across several departments at MGH to evaluate the effectiveness of facilitating conversations between hospital staff members and Spanish and Portuguese-speaking patients with limited English proficiency. Click [here](#) for more information.
- **JVS Boston** is accepting candidates for [Bridges to College Biotechnology Training Program](#). Bridges to College is a 23-week training program that prepares people to start college and get an entry-level biotech role. Click [here](#) for more information.
- **LabCentral Ignite's Career Forge** program identifies exceptional people and empowers them with relevant skills needed to forge their path into the biotech industry. Career Forge prepares career-ready people ("Forgers") for technical roles, while partnering with hiring teams in our network to connect Black, Latinx, first-generation college, high school graduates, transitioning adults, and associates and bachelor's degree holders to meaningful career opportunities. Click [here](#) for more information.
- **Propel Postdoctoral Scholars Program** seeks to empower outstanding scientists, prepare future faculty leaders, and create and a community of promising bio-scientists from backgrounds historically underrepresented in academia who are interested in becoming faculty. Propel is a 2-year cohort-based program that provides a \$80,000 annual salary with benefits and \$5,000 supplemental research funds. Click [here](#) for more information.
- **The Department of Population Medicine** is accepting applications for the Thomas O. Pyle Fellowship for the academic year July 1, 2023 - June 30, 2024. The Harvard Pilgrim Health Care Foundation and Harvard University created the Fellowship in honor of Thomas Pyle, who was Chief Executive Officer of Harvard Community Health Plan for many years and a leader in the Harvard and Boston communities. **Applications must be received by January 6, 2023.** Contact Elizabeth Grillo for further information at Elizabeth_Grillo@harvardpilgrim.org.

Resources

- **RESEARCH FUNDING AVAILABLE: The PhRMA Foundation** is accepting applications for fellowships and grants in the areas of Translational Medicine and Value Assessment/Health Outcomes Research. Predoctoral fellowships provide \$25,000 per year for up to two years. Postdoctoral fellowships provide \$60,000 per year for two years. Faculty grants provide \$100,000 for one year. Deadline: February 1. To learn more and apply, visit phrma-foundation.org/awards.
- **Kelly Guenther/Arcaea** - Internship (1 year) – Skin Microbiome; Arcaea is building a new ingredient toolset for the beauty and personal care industry – one rooted in biotechnology with the aim of delivering radical performance and unparalleled sustainability that will also present new opportunities for storytelling. This role will be critical to shaping and driving Arcaea’s ethos around a “biology-first” future for the industry. Our mission is to create the most consequential personal care ingredients and brands of this century. Click [here](#).
- **Vertex Opportunities** - Vertex has two new exciting opportunities available! Vertex Fellow Program and Vertex Physician Investigator Program. Find details on the [BSCP website](#). Vertex is committed to providing a higher internal level of visibility to BSCP applicants. In addition to listing BSCP on your resume, please let Pinar Kilicci-Kret (pinar_kilicci-kret@hms.harvard.edu) know if you applied to any of the Vertex positions.
- **The National Human Genome Research Institute (NHGRI)** Division of Intramural Research is one of the premier research programs in genome sciences. NHGRI scientists have embarked on a number of efforts to unearth clues about the complex genetic pathways involved in human diseases. SPRinG is a subprogram of the NIH Summer Internship Program (SIP). The application for summer 2023 is open. To apply Submit an online NIH SIP application by January 20, 2023. Note that the deadline for iSPRinG is earlier than the NIH SIP deadline. Click [here](#) for more information.
- **Takeda Pharmaceuticals U.S.** is looking for exceptional Early Career professionals to join our world-class R&D organization where you will help unlock innovation and push the boundaries of what is possible. Click [here](#) to learn how Takeda’s global team of researchers and scientists harness cutting-edge science to deliver transformative benefits to patients and to apply or see open positions in our functional teams which include, Data & Pharmaceutical Sciences, Regulatory Affairs, Research, Development, or our Therapeutic areas. If you apply one of these opportunities please notify Pinar Kilicci-Kret (pinar_kilicci-kret@hms.harvard.edu) so she can make sure your resume is seen by the hiring manager.
- **Physician Scientist Support Foundation** Medical Scholars Research Fellowship provides research opportunities and mentoring to students who aspire to become physician-scientists and are dedicated to making fundamental discoveries that improve health. The MSRF is a key component of PSSF’s mission to revitalize, grow and support the career pathway for physician-scientists. The fellowship supports one year of mentored, rigorous research training in fundamental biomedical research. Single-degree medical students interested in a dual career in research and patient care are eligible to apply for the MSRF. Click [here](#) for more information.
- **The National Institutes of Health (NIH)** Chief Nurse Officer position - Department of Health and Human Services National Institutes of Health Clinical Center Chief Nurse Officer, Nursing Department invites outstanding nurse executives with demonstrated experience leading a clinical research program, proven academic excellence, to apply for the position of Chief Nurse Officer at the NIH Clinical Center, Bethesda, MD. The NIH Clinical Center (CC) is the largest hospital in the world totally dedicated to clinical and translational research. Click [here](#) for more information.
- **Regeneron Opportunities** 2023 Internship & Co-op job postings are now available! Please go to our careers site and apply to what best matches your experience and interest. Please click [here](#) for more information and available opportunities. Please let Pinar Kilicci-Kret (pinar_kilicci-kret@hms.harvard.edu) know if you apply to any of the Regeneron positions.
- **Gulf Research Program** is now accepting applications for fellowship opportunities! The Gulf Research Program helps scientists hone their skills by putting them to practice for the benefit of Gulf Coast communities and ecosystems. Click [here](#) for more information.
- **Laney Graduate School** – Summer Opportunity for Academic Research. Call for Undergraduate Scholars. Applications are now open for the Laney Graduate School's Summer Opportunity for Academic Research Program Apply by January 18, 2023 at 11:59 pm EST. **Application:** A complete application will include items such as a transcript, statement of purpose, application form, letter of support, and more. For more information, applicants may [visit our website](#). Questions about applications? See the [application instructions PDF](#).

Save The Dates

[Biomedical Science Careers Student Conference](#)

Friday, March 31 and Saturday, April 1, 2023

[New England Science Symposium](#)

Sunday, April 2, 2023
